**Summary of Legislation:** This bill creates the Division of Interscholastic Athletics (the Division) within the Department of Education (the Department). It provides that the Division is governed by a 10-member board (the Board), with a member appointed by the State Superintendent of Public Instruction from each congressional district. It provides that the Board regulates, supervises, and administers all interscholastic athletic programs. It allows the Board to enter into agreements with nonpublic schools for participation in interscholastic athletic programs. It allows the Board to hire a director and necessary staff. It also provides that a school corporation may participate in interscholastic athletics that are governed by the Board. The bill also includes transitional provisions.

**Effective Date:** Upon passage; July 1, 2001.

**Explanation of State Expenditures:** The Department would incur additional administrative time and personnel costs in fulfilling the requirements of this bill. The salary compensations for a division director, assistants, and other personnel would be determined by the Board with approval of the Superintendent of Public Instruction and the State Budget Agency.

Although this bill does not specify an exact number of support staff required for the Division, it does enumerate the powers and duties of the Board which are similar to the responsibilities of the Indiana High School Athletic Association (IHSAA). The IHSAA is comprised of 18 board members, and approximately ten support staff.

***Personnel Salaries-*** The salary compensation of a director for the Division (ESM I) could total \$86,508 for FY 2002 and \$88,154 for FY 2003. In addition, the Division could need ten staff comprised of clerical and professional personnel (i.e., four PAT I positions and six COMOT IV positions).

The salary compensation of six clerical staff (COMOT IV) could total \$159,809 for FY 2002 and \$155,317 for FY 2003, and the salary compensation of four professional staff (PAT I) could total \$190,208 for FY 2002 and \$190,560 for FY 2003.

Total salary compensations for the above 11 personnel to fulfill the requirements of this bill could equal \$436,525 for FY 2002 and \$434,031 for FY 2003.

The funds and resources required above could be supplied through a variety of sources, including the following: 1) existing staff and resources not currently being used to capacity; 2) existing staff and resources currently being used in another program; 3) authorized, but vacant, staff positions, including those positions that would need to be reclassified; 4) funds that, otherwise, would be reverted; or (5) new appropriations.

Based on the 07/09/00 state manning table, the Department of Education has 375 authorized positions of which approximately 75 are currently vacant.

***Board Per Diem and Travel Reimbursement-*** Members of the Board would be entitled to per diem and travel reimbursement. The Department would be responsible for implementing these provisions.

No funds are appropriated by this bill for the above requirements. Ultimately, the source of funds and resources required to satisfy the requirements of this bill would depend upon legislative and administrative actions.

#### *Background*

***Mission*** - The IHSAA currently regulates, supervises, and administers interschool athletic activities among its 384 member high schools. It determines qualifications of individual contestants, coaches, and officials. The Association was organized in 1903.

***Board of Directors*** - The IHSAA is governed by its legislative body, the Board of Directors. Composed of 18 members who are elected by member school principals from five IHSAA legislative districts, the directors serve staggered three-year terms. The Board of Directors meets annually with the responsibility of establishing IHSAA rules and regulations.

***Executive Committee*** - Within the Board of Directors is the Executive Committee, composed of directors serving the second and third years of their three-year terms. The Executive Committee meets monthly and is responsible for organizing and directing state tournaments and state meets among other administrative duties.

***Public Law 15-2000*** - Public Law 15-2000 required the IHSAA to establish a case review panel comprised of parents, high school principals, and athletic directors appointed by the State Superintendent of Public Instruction. The Case Review Panel examines the application and interpretation of IHSAA rules and makes decisions regarding individual cases brought forth by concerned parents.

#### **Explanation of State Revenues:**

**Explanation of Local Expenditures:** Currently, school corporations are allowed to participate in athletic events conducted, organized, sanctioned, or sponsored by the IHSAA. Under this bill, school corporations would continue to be allowed to participate in such athletic events, but under the purview of the Division.

School corporations would incur no additional administrative time or cost as a result of this bill.

**Explanation of Local Revenues:**

**State Agencies Affected:** Department of Education.

**Local Agencies Affected:** School Corporations.
